// Andrei Hudovich

Senior Full Stack Engineer

Intro

I'm a highly skilled senior full stack engineer (React / Next.js stack) with over 8 years of experience. During that time, I have been an important member of diverse teams, showing the ability to adapt to business needs. I am looking for new career challenges to develop my skills further.

Employment History

Lead Front-end Engineer

Mar 2023 – Present • Propbar • United Kingdom

- Led the front-end work from the project inception.
- Maintained a browser extension, widget and web application as a monorepo.
- Architected a highly complex real-estate map service.
- Implemented a sophisticated data grid of property comparables.

Senior Front-end Engineer

Jun 2022 – Feb 2023 • LolaDB • United States

- Worked to solve complex problems using the latest Web Standards.
- Architected the product's front-end structure.
- Accomplished the development of the sophisticated UI components.
- Developed the open-source component library.
- Crafted responsive marketing landing pages.

Senior Front-end Engineer

Oct 2021 – Apr 2022 • Casago • United States

- Joined the new company after Nokori's acquisition.
- Helped to adapt and embed the new assets into the franchise ecosystem.
- Developed the ground for the new property analytics project.

Senior Front-end Engineer

Jul 2020 – Oct 2021 • Nokori • United States

- Acted as a primary and sole front-end developer of the team.
- Was responsible for the development of the single-page application.
- Worked on responsive static marketing pages.
- Managed the migration from Vue 2 codebase to Vue 3 and Composition API.

Front-end Developer

Jan 2015 – Jul 2020 • Freelance Platforms • Worldwide

- Kick-started my developing career as a PSD-to-HTML developer.
- Helped dozens of clients around the world to build and deploy their websites.
- Worked hard to meet client deadlines.
- Matured as a self-taught senior front-end engineer
